

NovaSperser® Color and Additive Dispersions

NovationSi is a materials science company specializing in high quality modifiers, additives, and colorants designed for liquid silicone rubbers (LSR) and high consistency rubbers (HCR).

We deliver fast, dependable service coupled with great chemistry. While our curiosity brings new ideas to life, it's our know-how from decades of experience that produces superior products.

Available Products

- **NovaSperser® Standard** color and additive dispersions for LSR and HCR
- **NovaSperser® Healthcare¹** color and additive (including antimicrobials) dispersions for LSR and HCR
- **NovaSperser® RTV Silicone** color and additive dispersions
- **Third-stream additives** (e.g., radiopacity, bleed fluid, hardness modifiers, etc.)

Features and Benefits

- Excellent pigment and additive dispersion
- Highly concentrated
- Batch-to-batch consistency
- Suitable viscosities for metering systems
- Appropriate for use with addition- and peroxide-cured systems
- Compatible with one- and two-part RTV systems
- Custom formulations available
- Color matching available
- 8 lb., 40 lb., and 400 lb. containers available for LSR and RTV products
- 10 lb. and 50 lb. containers available for HCR products

¹Our NovaSperser® Healthcare products are not intended for long-term implant (>29 days). These products have passed USP Class VI testing, but NovationSi makes no end-use representation. It is the user's responsibility to independently test and verify the safety and suitability of the material performance in the intended application.
