

NovaSpers[®] Healthcare¹ Color Dispersions for LSR and HCR

NovationSi is a materials science company specializing in high quality modifiers, additives, and colorants designed for liquid silicone rubbers (LSR) and high consistency rubbers (HCR).

Our **NovaSpers[®] Healthcare¹** color dispersions are designed and tested using selected pigments and ingredients to meet USP Class VI requirements and are appropriate for use with addition- and peroxide-cured systems.

For more information, email CS@NovationSi.com, visit NovationSi.com, or call our supply partner RDAbbott at **562.944.5354**.

¹Our NovaSpers[®] Healthcare products are not intended for long-term implant (>29 days). These products have passed USP Class VI testing, but NovationSi makes no end-use representation. It is the user's responsibility to independently test and verify the safety and suitability of the material performance in the intended application.

²The color swatches shown here are computer-generated and are not necessarily a precise representation of the actual colors.

Features and Benefits

- Batch-to-batch consistency and complete raw material traceability
- Formulated without the use of heavy metals, phthalates, and BPA
- Excellent pigment and additive dispersion
- Highly concentrated
- Suitable viscosities for metering systems
- Compatible with one- and two-part RTV systems
- Custom formulations and color matching available
- 8 lb., 40 lb., and 400 lb. containers available for LSR and RTV products
- 10 lb. and 50 lb. containers available for HCR products
