

NovaSpense® Color and Additive Dispersions

NovationSi is the manufacturing subsidiary of **RDAbbott**—a materials science, engineering and distribution company that's devoted to the advancement of rubber technologies—where applied curiosities become a reality.

NovationSi specializes in:

- Modifiers, additives, and colors for silicone
- Custom liquid silicone rubber (LSR) compounds
- Highly specialized elastomer products

While our curiosity brings new ideas to life, it's our teams' know-how from decades of experience that produces superior and innovative products.

Available Dispersion Products

- **NovaSpense® Standard** color and additive dispersions for LSR and HCR
- **NovaSpense® Healthcare¹** color and additive dispersions for LSR and HCR
- **NovaSpense® RTV Silicone** color and additive dispersions
- **NovaSpense® Third-Stream Additives** (e.g., radiopacity, bleed fluid, hardness, anti-friction, antimicrobial, and electrically conductive modifiers)

Features and Benefits

- Excellent pigment and additive dispersion
- Highly concentrated
- Batch-to-batch consistency
- Suitable viscosities for metering systems
- Appropriate for use with addition- and peroxide-cured systems
- Compatible with one- and two-part RTV systems
- Custom formulations available
- Color matching available
- 8 lb., 40 lb., and 400 lb. containers available for LSR and RTV products
- 10 lb. and 50 lb. containers available for HCR products

¹Our NovaSpense® Healthcare products are not intended for long-term implant (>29 days). These products have passed USP Class VI testing, but NovationSi makes no end-use representation. It is the user's responsibility to independently test and verify the safety and suitability of the material performance in the intended application.
